

DC864 Desk Calculator

The Aurora DC864 is an extra large general purpose desktop calculator, which has an angled 12 digit LCD display to enable easy viewing. The calculator has large hard plastic keys and a durable front case made of metal. Features include a decimal point selector, 'Add mode' for working with money, a round up or down selector and a programmable tax function which allows a tax rate to be set and stored by the user and then simply added or deducted by pressing the tax +/- keys, this is ideal for adding or subtracting VAT.
