

# EMU1 Installation Guide

## **CONTENTS**

This CD contains emulator software for the Aurora HC102, HC133, HC106 and EC240 calculators. Each emulator folder also contains an emulator user guide and calculator test and answer sheets

## **SYSTEM REQUIREMENTS**

HC102 - Microsoft® Windows Vista or above. CPU minimum requirements: Processor 2GHz, RAM 512MB, Disk Space required 50MB. Minimum Screen Resolution 1280 x 800.

HC133/HC106/EC240 - Microsoft® Windows 98 or above. Adobe Flash player 9 is used.

## **INSTALLING THE EMULATOR**

Insert the CDROM and open a folder to view the files contained on the CD.

Open the folder of the specific calculator emulator you require.

For the HC102, double click on the file 'HC102 EMULATOR.msi' and the emulator will install to your PC, when finished exit the CD and locate the emulator shortcut icon that will now be on your desktop and double click on this to open the emulator.

For the HC133, HC106 and EC240, double click on the Flash file suffixed .exe, the emulator will use flash player and run straight from the CD. You can also copy and paste the .exe file and save it to your PC.

Instructions on how to use the emulators are contained on the CD in the main folders.

## **AUTHORISED USAGE**

This software is protected by copyright and its use is licensed by Aurora Electronics (UK) Ltd.

This emulator software is licensed for use as a teaching aid and can only be used in conjunction with the use of Aurora calculators. This emulator is licensed for use across a single site and can be installed on an unlimited number of PCs on the site or made available via a network.

The test and answer sheets may be used, edited, copied and reproduced by the user in conjunction with the use of Aurora calculators.
